Education

Siksha 'O' Anusandhan (ITER) <i>B.Tech in Computer Science and Engineering</i> CGPA: 8.34 / 10.0	Bhubaneswar, India 2023 – 2027
Odisha Adarsha Vidyalaya <i>Class XII (CBSE)</i> Percentage: 74.4%	Ganjam, India 2020 – 2022

Skills

Programming Languages: Python, Java, JavaScript, MySQL
AI / ML: NumPy, Pandas, Scikit-learn, Machine Learning, CNN (Basic), Deep Learning (Basic)
Frameworks & Libraries: React.js, Bootstrap
Tools & Technologies: Git, GitHub, Docker, WebSockets
Coursework: DSA, DBMS, Computer Networks, Machine Learning Fundamentals

Projects

Customer Churn Prediction System GitHub <i>Python, Pandas, Scikit-learn, Machine Learning</i>	2026
- Developed a machine learning model to predict customer churn using structured customer datasets. - Performed preprocessing including feature encoding, missing value handling, and feature scaling using StandardScaler. - Implemented classification algorithms and evaluated model performance using accuracy score and confusion matrix.	
CNN-Based Cancer Detection System GitHub <i>Python, TensorFlow/Keras, CNN, Deep Learning</i>	2026
- Developed a CNN-based image classification system for cancer detection using medical imaging datasets. - Applied image preprocessing, normalization, and augmentation techniques for improved model training. - Implemented convolutional neural network layers for feature extraction and classification.	
Flap Eagle Game GitHub <i>Java, Swing, OOP, Event Handling</i>	2025
- Developed a 2D Flappy Bird-inspired desktop game using Java Swing and object-oriented programming concepts. - Implemented physics-based movement mechanics, collision detection, obstacle spawning, and score tracking. - Built a real-time rendering and game update loop using JFrame and JPanel for interactive gameplay.	

Achievements

- Runner-up at college-level Smart India Hackathon finals, recognized for technical proficiency in real-world software solutions.
- Mentored 45+ students in Backend and Frontend development through workshops, code reviews, and debugging sessions.
